Priority Action Items

Immediate (Quick Wins)

These interviews already have DOCX transcripts and just need conversion:

1. **Silverman_and_Fardman_15_3.docx** (in root) → Convert to CSV/PDF
2. **Nick_Nonas.docx** (in OBJs/) → Convert to CSV/PDF
3. **Nick_Nonas_2.docx** (in OBJs/) → Convert to CSV/PDF
4. **Rick_Kellar.docx** (in OBJs/) → Convert to CSV/PDF
5. **dg_1770743912.docx** (in backup) → Convert to CSV/PDF
6. **dg_1770743913.docx** (in backup) → Convert to CSV/PDF

Estimated Time: ~15 minutes (6 conversions × 2-3 minutes each)

Ongoing (Transcription Required)

These 14 interviews need MS Word Online transcription (most time-consuming stage):

- Darrell Hall
- Jason Stohler
- Jessica Byerly 2011
- Katie Marienfeld
- Kerry Bart 1 & 2
- Lynn Freeman 1 & 2
- Lynn Mackenally 75
- Marianne Campbell Spence 66 & 66_2
- Name Not Given 85 & 85_2
- Reed Stevenson 65

Estimated Time: Variable (depends on audio length and transcription review time)

Notes

- **File Locations:** Audio files are in root and OBJs/, processed files are in OBJs/ and backup folders
 - **Backup Folders:** `file_selector_20260210_111745_*` and `file_selector_20260212_095240_*` contain archived work
 - **Naming Convention:** Some files use spaces, others use underscores - standardize when creating new files
 - **MacWhisper Files:** The `from-MacWhisper/` folder contains TXT files that may have been used for initial transcription
 - **Generated Metadata:** Several CSV files named `generated_metadata_*.csv` exist - these appear to be from CollectionBuilder metadata generation
-

Workflow Reminder

For each interview:

1. **Upload audio** to MS Word Online → Use Transcribe feature
2. **Edit transcript** in Word → Fix speaker names, review text

3. **Save as DOCX** → Use same name as audio file, save in same folder
 4. **Run conversion** → Open app, select MP3, click "Convert DOCX to CSV & PDF"
 5. **Verify output** → Check that CSV and PDF files were created
 6. **Update this document** → Move interview to "Complete" section
